

Services Agreement

CastraNova POS v1 — Development, Support & Procurement

AGREEMENT REFERENCE

KWG-CN-2026-0602-MSA-001

EFFECTIVE DATE

2 June 2026

PROJECT SCOPE

PRD v3.0 (Exhibit A)

COMMERCIAL REFERENCE

Quotation v2.0 (Exhibit B)

SERVICE PROVIDER

Wai Phyo Aung trading as K W G

Software development services

Email: waiphyoag.cs34@gmail.com

(hereinafter "KWG")

CLIENT

CastraNova

Bangkok HQ + Yangon Warehouse

Refrigeration trading business

(hereinafter "CastraNova" or the "Client")

This Services Agreement (the "Agreement") is entered into between the parties identified above (each a "Party" and together the "Parties") with effect from the Effective Date above. The Parties agree as follows.

1. Background

1.1 CastraNova operates a B2B refrigeration trading business between Bangkok HQ (administration) and Yangon (warehouse + on-site service) and requires a barcode-tracked inventory and channel-margin reporting system to replace its current spreadsheet-and-memory workflow.

1.2 KWG is a software development service provider and has prepared a product requirements document and quotation describing such a system, which CastraNova has reviewed and accepted.

1.3 The Parties now wish to formalise the engagement under the terms of this Agreement.

2. Definitions

In this Agreement, the following terms have the meanings given below:

- **"PRD"** means the Product Requirements Document version 3.0 dated 2 June 2026, attached as **Exhibit A** and incorporated by reference.
- **"Quotation"** means Project Quotation v2.0 (reference KWG-CN-2026-0602-Q2) dated 2 June 2026, attached as **Exhibit B** for background only; in the event of any conflict between the Quotation and this Agreement, **this Agreement prevails**.
- **"System"** means the CastraNova POS v1 software application described in the PRD, including the small AI integration referenced therein.
- **"Project"** means the development, deployment, training, and 30-day post-launch support of the System, per Section 4.1.
- **"SLA"** means the monthly support arrangement described in Section 4.2.
- **"Procurement Services"** means the hardware and hosting procurement described in Section 4.3.
- **"Deliverables"** means the items listed in Section 6.
- **"Effective Date"** means 2 June 2026 or the date on which both Parties have signed this Agreement, whichever is later.
- **"Production Cutover"** means the moment the System is deployed to the production environment and made available to CastraNova users in live operation.

3. Scope of Services

KWG agrees to provide the following services to CastraNova under this Agreement, comprising three distinct streams:

3.1 The Project (one-off development)

KWG will design, build, deploy, train CastraNova staff on, and support the System per the scope set out in the PRD (Exhibit A). The Project includes all twenty functional requirements (FR-001 through FR-020) and the small AI integration described in the PRD §1.

3.2 The Monthly SLA (recurring support)

Following the 30-day post-launch bug-fix support window included in the Project, KWG will provide ongoing monthly Service Level Agreement coverage as set out in Section 4.2, **unless CastraNova opts out** in writing before the included 30-day window ends.

3.3 Procurement Services (pass-through)

KWG will procure barcode scanners, a label printer, label rolls, and the first-year Hostinger VPS subscription on CastraNova's behalf as set out in Section 4.3, **subject to vendor-quote confirmation** before any purchase order is placed.

4. Detailed Service Streams

4.1 The Project

4.1.1 Timeline. KWG will deliver the System within **two to four (2–4) weeks** of the Effective Date, including a two-week parallel run with CastraNova's existing spreadsheet system and one day of on-site training per office (Bangkok HQ and Yangon warehouse).

4.1.2 Scope. Bound by the PRD as of 2 June 2026. Any post-signing edit to the PRD does not change the binding scope of this Agreement unless agreed in writing as a change order under Section 13.

4.1.3 30-day post-launch support. KWG will provide bug-fix support at no additional charge for thirty (30) calendar days following Production Cutover, covering defects traceable to the PRD acceptance criteria. Response SLA: critical issues within one (1) business day, non-critical within five (5) business days.

4.2 The Monthly SLA

4.2.1 Start date. Day thirty-one (31) after Production Cutover.

4.2.2 Fee. **฿5,000 THB per month**, invoiced on the first day of each calendar month, payable within fourteen (14) calendar days.

4.2.3 Coverage. Bug-fix support for any defect traceable to the PRD; monthly system health check (logs, backups, hosting status, notification delivery); LINE / Viber bot enrollment for new user accounts; admin runbook updates as the System evolves. Same response SLAs as Clause 4.1.3.

4.2.4 Exclusions. The SLA does not cover new features or scope changes beyond the PRD (those are change orders under Section 13), hardware repair or replacement (vendor responsibility), or third-party API outages.

4.2.5 Minimum commitment. Three (3) months once the SLA is activated.

4.2.6 Opt-out. CastraNova may decline the SLA entirely by written notice to KWG before the included 30-day window under Clause 4.1.3 ends. In that case, post-month-1 support is handled ad-hoc on terms mutually agreed per request before any work starts.

4.2.7 Pause and termination. After the three-month minimum, either Party may terminate the SLA with thirty (30) calendar days' written notice. CastraNova may also request a one-month pause by providing fourteen (14) days' written notice before that month's billing date; resumption requires written re-activation.

4.3 Procurement Services

4.3.1 Reference items. Bluetooth scanners (TYSSO BCP-2DC, Posiflex CD-3870), label printer (TSC TDP-225), direct thermal label rolls, and Hostinger KVM 8 first-year VPS subscription, per PRD §8.4–8.5 and itemised in Exhibit C (Invoice 002).

4.3.2 Process. The amounts in Exhibit C are indicative. KWG will obtain live vendor quotes, share them with CastraNova within three (3) business days, and only place purchase orders after CastraNova confirms the firm vendor amounts in writing. The final procurement invoice will match the confirmed vendor amounts.

4.3.3 Pass-through pricing. KWG procures at vendor cost and charges no margin. Vendor receipts are provided to CastraNova upon procurement completion.

4.3.4 Direct procurement. CastraNova may elect to procure any item directly from the listed vendor, in which case the item is removed from the procurement invoice. Such election must be notified to KWG before payment of the procurement invoice.

4.3.5 Year-2 hosting. CastraNova subscribes to Hostinger directly from year two onward. KWG does not invoice for Hostinger renewals.

4.3.6 Hardware warranty. Warranty, repair, and replacement for all hardware procured under this Section remain the responsibility of the underlying vendor.

5. Fees and Payment

5.1 The Project fee. \$1,000 USD (approximately ฿35,000 THB), fixed-price, all-in for the scope in Section 4.1.

5.2 Payment schedule for the Project. Two milestones:

- **Mobilization — 50% (\$500 USD):** due upon signature of this Agreement.
- **Delivery — 50% (\$500 USD):** due upon Production Cutover.

Each milestone is invoiced separately (Invoice KWG-CN-2026-0602-INV-001) and payable within fourteen (14) calendar days of the milestone trigger.

5.3 SLA fee. As stated in Clause 4.2.2: ฿5,000 THB per month, invoiced monthly.

5.4 Procurement fee. Pass-through vendor cost, invoiced via Invoice KWG-CN-2026-0602-INV-002 (estimate) and re-issued at firm vendor amounts after the confirmation step in Clause 4.3.2.

5.5 Banking details. KWG's bank details are provided as a separate scan accompanying the first invoice. Payment by international wire transfer is acceptable.

5.6 Currency. Project fees are stated in USD; SLA, procurement, and other recurring amounts are in THB. Exchange rate referenced at approximately 35 THB / USD for indicative conversion only; actual rate is determined by the receiving bank at payment time.

5.7 Taxes. Each Party bears its own taxes arising from its own activities. Any withholding tax imposed by the jurisdiction of CastraNova on payments to KWG, if applicable, shall be deducted from the gross invoice amount and a withholding tax certificate provided to KWG. CastraNova will make commercially reasonable efforts to minimise such withholding.

6. Deliverables and Acceptance

6.1 Upon completion of the Project, KWG will deliver to CastraNova:

- The working web application accessible from Bangkok HQ and the Yangon warehouse
- All source code transferred to a CastraNova-owned private GitHub repository
- Production deployment with HTTPS, daily database backups, and a tested restore procedure
- One-time catalog seed import from CastraNova's existing CSV / Excel product list
- LINE / Viber bot setup for the first ten user accounts
- Bluetooth scanner field tuning on the reference scanner models
- Two-week parallel run with existing spreadsheets
- One day of on-site training at each office (Bangkok HQ + Yangon warehouse)
- An operations runbook covering user onboarding, label-printer setup, and routine admin tasks
- 30 calendar days of post-launch bug-fix support per Clause 4.1.3

6.2 Acceptance. CastraNova shall have ten (10) business days from Production Cutover to test the System against the PRD acceptance criteria and notify KWG in writing of any non-conformance. If no written non-conformance is received within ten (10) business days, the System is deemed accepted, and the delivery milestone fee becomes due.

6.3 Defect remediation. Any non-conformance notified within the acceptance window is remediated at no additional charge by KWG. The 30-day post-launch bug-fix window begins on the date of formal acceptance (or deemed acceptance) under Clause 6.2.

7. Term and Termination

7.1 The Project term. Begins on the Effective Date and ends upon the later of (a) acceptance under Clause 6.2 plus the 30-day post-launch support window, or (b) full payment of the Project fee.

7.2 SLA term. Begins on Day 31 after Production Cutover and continues monthly until terminated under Clause 4.2.7, opted out of under Clause 4.2.6, or terminated under Clause 7.4.

7.3 Procurement Services term. Concluded upon vendor receipt provision under Clause 4.3.3 for the first-year items.

7.4 Termination for cause. Either Party may terminate this Agreement, in whole or with respect to a specific service stream, by giving thirty (30) calendar days' written notice for material breach by the other Party that remains uncured during the notice period.

7.5 Termination for convenience by CastraNova. CastraNova may terminate the Project for convenience by written notice. Settlement covers (a) the mobilization payment in full (non-refundable) and (b) pro-rata payment for work in progress at the date of termination based on KWG's good-faith assessment.

7.6 Effect of termination. Upon termination, KWG will transfer all work to date to a CastraNova-owned private GitHub repository within five (5) business days. Sections 8 (IP), 9 (Confidentiality), 11 (Limitation of Liability), and 14 (General) survive termination.

8. Intellectual Property

8.1 Pre-existing IP. Each Party retains ownership of all intellectual property it owned prior to the Effective Date and of any pre-existing tools, libraries, or frameworks it brings to the engagement.

8.2 Project IP. Upon full payment of the Project fee under Clause 5.2, all source code, deployment configuration, designs, documentation, and other deliverables created specifically for CastraNova under the Project ("**Project IP**") shall be assigned to and become the property of CastraNova. Prior to full payment, KWG retains all rights in the Project IP.

8.3 Reuse of generic patterns. KWG retains the right to reuse, in future engagements, generic architectural patterns, reusable utility functions, and general know-how acquired during the Project, provided that no client-specific business logic, schemas, data, or branding is reused.

8.4 Open-source dependencies. The System uses open-source software libraries which retain their original licenses. KWG will provide an inventory of such licenses at handover.

8.5 Restriction on onward distribution. CastraNova may not resell, sublicense, or open-source the Project IP without KWG's prior written consent for twelve (12) months following final acceptance.

9. Confidentiality

9.1 Mutual obligation. Each Party agrees to treat as confidential, and not to disclose to any third party, any non-public information of the other Party that comes to its knowledge during the engagement, including but not limited to business data, customer lists, prices, margins, technical specifications, and commercial terms.

9.2 Exclusions. The confidentiality obligation does not apply to information that (a) was in the public domain at disclosure, (b) was already known to the receiving Party from a non-confidential source, or (c) is required to be disclosed by law or court order, in which case the receiving Party will give prompt notice to the disclosing Party where lawful.

9.3 Data handling. KWG accesses CastraNova production data only via the Hostinger VPS owned by CastraNova. KWG retains no copies of production data on its own systems after the Project ends. Staging data used during development is synthetic or anonymised; real customer or supplier data is not loaded into staging without CastraNova's prior approval.

9.4 Survival. This Section survives termination of the Agreement for three (3) years.

10. Warranties

10.1 KWG warranty. KWG warrants that the System, upon final acceptance under Clause 6.2, will materially perform per the PRD acceptance criteria for ninety (90) calendar days from final acceptance. Within the warranty window, KWG will remedy any non-conformance at no additional charge.

10.2 Warranty exclusions. The warranty does not cover non-conformance caused by:

- Hardware failure (scanners, printer, server hardware)
- Third-party service outage or behaviour changes (Hostinger, LINE, Viber, label printer drivers, Thai distributors)
- CastraNova-side data entry errors
- Modifications to the System code by parties other than KWG
- Use of the System outside the documented operational scope

10.3 No other warranties. Except as expressly stated in this Section, KWG provides the System on an "as-is" basis. KWG makes no representation that it carries professional indemnity or errors-and-omissions insurance.

10.4 CastraNova warranties. CastraNova represents that it has full authority to enter into this Agreement, that the data and content it provides to KWG (catalog, customer lists, etc.) are lawfully obtained and CastraNova's to share, and that it will pay all fees due under this Agreement when due.

11. Limitation of Liability

11.1 Liability cap. The total aggregate liability of either Party to the other under or in connection with this Agreement, whether in contract, tort, or otherwise, shall not exceed the total fees actually paid by CastraNova to KWG under this Agreement at the time the liability arises.

11.2 Excluded damages. Neither Party shall be liable for indirect, consequential, special, punitive, or exemplary damages, including loss of profits, loss of business, or loss of data, however arising.

11.3 Exceptions. The caps and exclusions in this Section do not apply to liability for (a) breach of confidentiality under Section 9, (b) wilful misconduct or gross negligence, or (c) unpaid fees owed by CastraNova.

12. Force Majeure

12.1 Neither Party shall be liable for failure or delay in performance caused by events beyond its reasonable control, including but not limited to acts of God, natural disasters, war, civil unrest, government action, regulatory restrictions, prolonged internet or electricity outages exceeding seven (7) consecutive days, or pandemic-related restrictions.

12.2 The affected Party shall notify the other Party promptly in writing and use reasonable efforts to mitigate the impact. If a force majeure event continues for more than sixty (60) consecutive days, either Party may terminate the affected service stream by written notice.

13. Change Orders

13.1 Any change to the PRD scope after the Effective Date follows this process:

1. CastraNova requests the change in writing.
2. KWG provides a written impact assessment within three (3) business days, covering scope, effort, calendar impact, and a proposed price.
3. CastraNova approves the proposed price in writing.
4. KWG begins the work after approval; the change-order amount is invoiced separately.

13.2 Pricing. Each change order is priced by mutual agreement between the Parties — typically as a flat fee per change. No standing day rate is set in advance under this Agreement.

14. Dispute Resolution

14.1 Good-faith negotiation. If a dispute arises between the Parties in connection with this Agreement, the Parties shall first attempt to resolve the dispute through good-faith negotiation between authorised representatives.

14.2 Escalation to mediation. If the dispute remains unresolved after thirty (30) calendar days of good-faith negotiation, the Parties may mutually agree on the appointment of an independent mediator to assist the resolution. Mediation costs are shared equally.

14.3 No court designation. The Parties have intentionally not designated a specific court or arbitral forum, given the engagement scale. Should the Parties wish to escalate beyond mediation, they will agree on the forum at that point.

15. General Provisions

15.1 Notices. All formal notices under this Agreement shall be in writing and may be sent by email to the addresses set out in the signature block (or such other address as the recipient designates in writing). Notice is deemed received on the next business day after sending.

15.2 Amendments. No amendment, modification, or waiver of any provision of this Agreement is effective unless made in writing and signed by both Parties.

15.3 Entire Agreement. This Agreement, together with Exhibits A, B, and C, constitutes the entire agreement between the Parties with respect to its subject matter and supersedes all prior negotiations, representations, and understandings.

15.4 Severability. If any provision of this Agreement is held to be invalid or unenforceable, the remaining provisions remain in full force and effect, and the invalid provision shall be modified to the minimum extent necessary to be enforceable while reflecting the original intent.

15.5 Counterparts. This Agreement may be executed in any number of counterparts and by electronic signature (PDF / DocuSign / equivalent), each of which is deemed an original and which together constitute one and the same instrument.

15.6 No partnership. Nothing in this Agreement creates a partnership, joint venture, agency, or employment relationship between the Parties.

15.7 Assignment. Neither Party may assign its rights or obligations under this Agreement without the prior written consent of the other, except that KWG may sub-contract specific technical tasks (e.g. design assistance) with prior written notice to CastraNova, while remaining fully responsible for the Sub-contractor's performance.

16. Exhibits

The following Exhibits are attached to and form part of this Agreement:

EXHIBIT	DESCRIPTION
A	PRD v3.0 — 2026-06-02-castranova-pos-v3.0-prd.pdf (binding scope)
B	Quotation v2.0 — 2026-06-02-castranova-pos-quotation-v2.0.pdf (background reference)
C	Invoice 001 (Development) — INV-001 and Invoice 002 (Hardware & Hosting, Estimate) — INV-002

17. Signatures

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the Effective Date.
